

## 4<sup>th</sup> International Conference on Primary Care and Public Healthcare

Theme: Bridging Research and Practice in Primary Care and Public Health

**Date**

May 07-08, 2026

**Venue**

Kuala Lumpur, Malaysia

SCAN ME

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives.

Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges.

Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide.

## About Conference

With a grand success of Primary Care 2025, We are pleased to announce the **“4th International Conference on Primary Care and Public Healthcare”** scheduled for **May 07-08, 2026**, in **Kuala Lumpur, Malaysia**. This year's conference will focus on the theme *“Bridging Research and Practice in Primary Care and Public Health”*.

Our goal is to bring together leading experts in Primary Healthcare and Health Services to share knowledge and innovations. This event is invaluable for doctors, professors, nursing students, and fellows, offering insights into the field. It also provides industries with opportunities to showcase products and engage with global scientists, expanding their business horizons.

We are confident that Primary Care 2026 will succeed tremendously, surpassing all expectations. We look forward to your participation in what promises to be a transformative and enlightening experience in the field of public health. [\(click here for more\)](#)
